

QC PATINA STAIN

CROSS REFERENCE GUIDE

QC Patina Stain cross-referenced to Scofield Lithochrome® Chemstain™
Cross Reference Guide 5.1.0106CRS

Scofield Designer Color	QC Color
Antique Amber	Buckwheat
Black	Blackfoot
Copper Patina	Bluegrass
Dark Walnut	Kodiak
Faded Terracotta	Adobe
Fern Green	Neptune*
Padre Brown	Ember
Weathered Bronze	Jade**

This guide cross-references Scofield Lithochrome® Chemstain™ colors to QC Patina Stain colors.

Due to the variations inherent with stain, these cross-referenced colors are approximation and do not represent exact color matches. Due to periodic changes in competitor literature, color tones or manufacturing practices the colors listed may no longer be exact matches. If you are seeking an exact color match, please submit a sample for analysis to the QC Construction Products color lab technicians.

Variables such as age and condition of concrete in existing slabs, surface porosity, base color, mix design, curing practices and finishing techniques, among other factors, will affect results of the final stain color.

* QC Patina Stain Neptune, by design, is much greener than Scofield's Fern Green.

** QC Patina Stain Jade, by design, is not as brown as Scofield's Weathered Bronze.

Though there is some similarity in tone, these two specific QC Patina Stain colors show a wider variation in color to their Scofield counterparts.

Lithochrome® and Chemstain™ are registered trademarks of L.M. Scofield Company
